CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, AUGUST 6, 1919

TWO CENTS

BOROUGH COUNCIL HOLDS ITS FIRST MEETING IN NEW BUILDING

Much Business of Interest to Citizens Was Discussed

COMPLIMENTS FOR QUARTERS

The first meeting of the borough council was held in the rooms at the new borough building Tuesday evening with an excellent representation of citizens. Many favorable comments were made by the visitors on the splendid appointments of the new council chambers, as well as the accommodations made for the public. All members except Lentz were present and the business moved off with smoothness and despatch.

Mrs. Ferdinand Playton of 310 Crest avenue, expressed a willingness to allow the borough to run a surface water sewer over her property an offer which will be accepted.

S. Huebels who wishes to build a house on Luella avenue near Third street and who wants to build the foundation where the property is filled in, asked council to give him the street grade. The borough engineer was directed to give the grade. Mr. Armbruster was present and asked council to take care of surface water on Lookout avenue near his property.

A notice was directed to be sent to the Tri-Cities Water company with reference to waste water from their reservoir. It is claimed this water runs over property adjacent. The company will be directed to carry the water off with a sewer.

The matter of grading Lookout avenue, near Eighth street, for Howard Thomas was placed in the hands of the street committee with power to act.

W. T. Hardester, of Pittsburg official decorator for the homecoming celebration was present and presented a plan of how he would like to decorate the borough building for the occasion. The matter was placed in the hands of a special committee composed of Messrs. Hein Moody and Duval.

Mr. Lundy complained about surface water overflowing his property on Shady avenue, the water coming from the rear.

Mr. Kendrick complained of the stench from a sewer drop at Prospect and Second and the matter was referred to the health officer.

Chief Albright reported that he had no place to put the ambulance. The new borough building provides for the police patrol, but for nothing else. He was directed to secure garage room for the vehicle.

The council decided to sell the old patrol wagon and will invite bids from dealers, notice of which will appear later.

A. F. Beaumariage was given permission to place a gasoline tank under the sidewalk at 524 1-2 McKean avenue.

The ordinance committee was instructed to prepare an ordinance reg-

GOVERNMENT IS NOW SELLING SURPLUS SUGAR

Washington has been allotted 40,000 pounds of sugar by the United States Sugar Equalization Board, but the borough authorities will have to send their check for \$3,528 before the shipment is made. The county seat is now expecting the carload of food supplies bought last week in Baltimore, and when it arrives will arrange to sell it in small lots to the citizens of the town.

ACCUSED GIVES BAIL FOR COURT

Chief of Police Albright, Officer Murphy and I. Birken were in Homestead on Tuesday to attend a hearing held before Justice Jones, in which one Finberg, a pawnbroker, was charged with receiving stolen goods. These goods had been taken from the Birken store early Tuesday morning of last week, and a number of revolvers were sold or pawned in Finberg's place in Homestead. When he refused to give up the goods to Mr. Birken a charge of receiving stolen goods was made against him. The hearing was fixed for Tuesday morning between 10 and 11 o'clock, but the defendant kept the court waiting for at least an hour before he arrived at the office of the justice. He said he would not go ahead with the hearing until his lawyer had arrived, but the justice told him he had had five days in which to prepare and that he must either go ahead with the hearing or give bail for court. He decided to do the latter and the case is now transferred to the criminal courts of Allegheny county.

It is alleged that after the hearing Finberg offered to return the goods and pay all costs if Mr. Birken would see that the \$44 paid on the revolvers was returned to the Homestead man. Mr. Birken refused the offer.

The New State Law requires your motor headlights to be equipped lenses. We have them. Regan and Hormell. 52-t6

Advertise your wants in the Classified Column of the Mail.

ulating the placing of gasoline tanks in the borough and also was directed to revise the electric sign ordinance.

Reports were received from officers, the Burgess reporting his receipts for June at \$204; the borough treasurer received in June \$6,869.25, balance \$393, making a total of \$7,262.85. Disbursements \$7,249, leaving a balance of \$13.85 in the treasury on the first of July.

Tax Collector Brady reported that from April 1 to August 1 he collected 1918 tax to the amount of \$294.17.

Disposes of His Holdings In Big Monessen Store

A deal was consummated in Monessen on Friday last, by which the holdings of John D. Berryman, of Charleroi, in the A. R. Ney Co., of Monessen, were purchased by A. R. Ney and his sons W. Morse and Albert, Jr. By this deal Mr. Ney and his sons become the sole owners of the big department store on Donner avenue and the enterprise thus becomes purely a Monessen undertaking.

Mr. Berryman relinquished his holdings in Monessen in order that he might give more of his time to his store in Charleroi, and also the

CHARLEROI POST TO HELP SOLDIERS

The Charleroi Post of the American Legion held a very interesting meeting last evening in the Charleroi Savings & Trust Co. Hall. A number of new men just out of service were in attendance and affiliated themselves with the organization.

Steps were taken to get ready for the Homecoming. Celebration to be given the soldiers from Charleroi and vicinity on August twenty first. The local Post is going to do everything within its power to show their appreciation for this welcome home and to help make this a big day in Charleroi. An athletic committee consisting of Earl Wagner, Dennis Oates, Mike Lombardo, Bert Osborne and David Johns, was appointed to organize the soldier's athletic teams for the day of the celebration.

Active steps were taken to look after all soldier's claims with the United States Government and the Bureau of War Risk Insurance. There have been many complaints that the soldiers are not getting what they are entitled from the Government and it is thought that these matters can be best attended to by organized efforts.

The next meeting of the Legion will be held on Friday night, August 15 in Public meeting room in the new Municipal Building, to which meeting every returned soldier, sailor and marine is invited to attend. It is felt by members that the Post can accomplish greater results by getting the support of every returned service man.

Cost of Clothing Going Up.

Clothing is going to take another big jump this fall. Scarcity of labor, high cost of material, etc., will raise the price of ready made garments. Why not keep the moth out of what you have by having them thoroughly cleaned by Footer's special chemical process. We call for and deliver all goods. Footer's Dye works, 327 Fallowfield avenue. Bell phone 428-J. 53-t1.

Our lenses are guaranteed by the manufacturer to meet all State motor laws. Regan and Hormell. 52-t6

FIRST MEETING IN THEIR NEW QUARTERS

The first meeting of the members of the fire department in their rooms in the new borough building, was held Tuesday evening. It was largely attended and considerable business of interest to the firemen disposed of.

A motion prevailed tendering a vote of thanks to William Marshal of Bentleyville for a very nice contribution the night of the fire in that borough; also to the school board of that borough for the generous donation made to the company, and to the women of that community who served them with hot coffee the morning of the fire.

Like a vote of thanks was given to W. B. Pfeiffer for a new Victrola, which he had presented to the fire company, and which has been installed in the rooms. The men were using the instrument last night, and were more than pleased with this fine gift.

The firemen have not yet had all their furniture installed in the new meeting room, but expect to have this done within the next few weeks. When the furnishing has been completed the men will have the finest quarters of any fire company in this section of the valley.

SCHOOL BOARD AWARD CONTRACTS

At the regular meeting of the school board held last evening, Lee Showers, recently appointed as a member of the board to succeed H. J. Booth removed from the district, was present and sworn in.

The contract for painting the Second street building, the High school and Crest avenue building was awarded to Mr. Elliott. The contract for beautifying the high school grounds, putting down cement walks, an enlarging the coal bins was awarded to William Armbruster. No action was taken to fill a few vacancies that exist in the faculties of the high and grades, but it is expected Superintendent Pollock will have these vacancies filled within the next two weeks.

WILL ASK \$1.00 CONTRIBUTION FROM EVERY CITIZEN IN CHARLEROI

PARADE COMMITTEE MEETS THIS EVENING

A meeting of the parade committee for the homecoming celebration has been called by J. B. Tussing, the chairman, for the municipal building this evening. This committee has a very important duty to perform and it will be necessary to get busy at once in order to carry out the many details in connection with their work.

BELIEVE NEGRO WAS MURDERED

Believed to have been the victim of whites who resented his familiarity toward white girls a year ago, James Williams, aged 40, a negro, better known as "Phil," was found murdered at an early hour Tuesday morning along the road just south of the Southwestern State Normal School at California.

Following alleged advances toward white girls, Williams was forced to leave town, but he returned recently and was living alone at Phillipsburg. The theory that he may have been killed with the intent of robbery was disproved by the fact that valuables in his possession were not disturbed.

Three bullet wounds were found in Williams' body and it was also cut about the back. People living near the scene heard several shots about midnight and a few minutes later two men returning home from the Vigilant mine found Williams' dead body. The remains were taken to the Hines undertaking rooms and Coroner Heffran will hold an inquest on Friday morning at 10 o'clock.

HOSPITAL MEETING HELD AT SPEERS

A very encouraging hospital meeting at which considerable enthusiasm was manifested, was held in the borough building at Speers on Tuesday evening. It was a joint meeting of the borough council and school board, together with a number of citizens interested in the movement. Coroner James Heffran was made chairman of the joint local committee, and the workings of the campaign were explained by the managers. It is expected that Speers citizens will do their share toward the hospital fund when the solicitation period arrives.

The Monongahela police are stopping automobiles which show bright lights and telling the drivers to provide themselves with lenses which comply with the new automobile law.

Miss Sara K. Booth has returned home after an extended visit at the home of J. A. Hepler, in Detroit.

Finance Committee Adopts Unique Scheme to Raise Money for Celebration

EVERYONE IS ASKED TO GIVE

Acting Chairman W. H. Milliken, of the finance committee of the homecoming celebration in honor of returned soldiers to be held in Charleroi on the 21st inst., has announced a plan for the subscription and collection of finances which he believes will turn in the amount desired and at the same time give every citizen of the borough an opportunity to contribute to the fund.

The plan will apply to individuals only, as the committee realizes that it would be practically impossible at this time to make a house-to-house canvass. Such a procedure would require the services of several people skilled in such work, and would take several days to complete the task.

The plan outlined by the committee is as follows:—At each of the three banks and the four drug stores in town a sealed box will be placed, while printed envelopes will be provided by means of which all those contributing may place their offerings in the envelopes, write their name and address together with the amount given thereon and deposit it in the box. The committee further decided that all such contributions should not be less than one dollar, and if the people of the community are only generous enough there will be no question about securing the sum desired. It will take several hundred dollars to care for the expenses, but if each citizen will give but one dollar the question of finance would be easily solved.

The manufacturing plants and firms will be looked after by the finance committee and generous contributions are hoped for. The committee is actively at work and expects to have all the funds necessary for the undertaking pledged several days before the event takes place.

Mangan-Ferrell
At 6 o'clock this morning the marriage of Miss Helen Mangan, daughter of Mr. and Mrs. Thomas F. Mangan of Lincoln Avenue to Strassman Ferrell, son of Mrs. Margaret Ferrell of Waynesburg, took place at the parsonage of St. Jerome's church, Rev. Fries performing the ceremony. The couple were attended by Thomas J. Mangan and Miss Kate Mangan, brother and sister of the bride. Immediately after the ceremony a wedding breakfast was served at the home of the bride's parents, following which the couple left for a wedding trip to Atlantic City and eastern points. Mr. and Mrs. Ferrell will reside in Brownsville.

WHEAT THE KEY

According to many close students of economic conditions, the wheat supply is the key to the high cost of living. The United States has the greatest harvest of wheat in its history, and the farmers and wheat growers are guaranteed by the government a price of \$2.25 a bushel. This guarantee was given at a time when the war was raging and when the government desired to increase the production of foodstuffs to the limit. The people of this country recognized the wisdom of the governmental attitude at the time, and no protest was made. They realized that foodstuffs must be produced in large quantities in order to keep big armies in the field as well as take care of the needs of those at home.

However, it has been almost nine months since the armistice was signed; the wheat crop, both winter and spring, has been harvested, and the result is the greatest crop in our history. In spite of this fact, the price of foodstuffs has increased and is increasing, and farmers even want more than the government price for their wheat. If wheat goes beyond \$2.25 a bushel other foodstuffs will follow in its wake. Prices are higher than they ought to be, and those who have made a close study of the situation have said that the wheat crop is the key that will unlock the situation. The New York Sun says:

"If the Washington administration will pull the plug out of its wheat profiteer reservoir it will not be merely our bread which will come down. As the corn which must feed the live stock and the poultry of the nation, likewise comes down beef, mutton, pork, poultry, milk, butter, cheese and eggs—all food will come down. As food comes down, labor can live on its wage. As labor again becomes able to live on its wage, new labor costs will not be forced in the manufacture of clothing and shoes and houses and tools and baby carriages and everything that a population of 110,000,000 people needs to consume in addition to its daily food.

If the administration will pull out its wheat plug the whole swollen mass of inflation will at the same time fall as water sinks in a barrel with the spigot open."

Many people agree with the Sun. Let the government take its loss of one billion of dollars if necessary—the people will have it to pay—but it will eventually save them equally more billions of dollars by the lessening of food costs.

A VOICE FROM THE SOUTH

Down in the Eighth Kentucky district on Saturday last the Republicans elected a returned soldier, King Swope, to Congress, to fill a vacancy caused by the death of the Democratic incumbent. This is the first time in 25 years that the Republicans have been able to elect a Congressman from that District, and coming at a time when the covenant of the league of nations is before the Senate for discussion and ratification.

When differences in the Republican ranks in the Westmoreland-Butler district last fall allowed a Democrat to be elected a great hubbub was raised by the untirred because they said the campaign had been conducted on the league of nations platform. Now that the covenant has been before the people for the past six weeks and has been debated at some length, the first opportunity the people to have in voting for a Congressman they return a Republican from a Democratic district. And in the South at that. It looks rather significant.

WILL NOT BE BLUFFED

One thing appears to be certain, the United States senate is not going to be bluffed into ratifying the covenant of the league of nations. The innuendos and threats that have been made heretofore will in no way influence the upper house of Congress, for the "Big Three" or the "Big Five" are not going to do a thing until they find out where the United States stands on the proposition. Moreover, it will be found

they will gladly agree to any modification that the Senate may incorporate in the covenant. They cannot afford to lose the United States from the circle—but the Senate is going to examine the paths very carefully before it makes the trip.

Candy men are looking forward to an increased consumption of their product as a result of prohibition. Their belief would appear to be founded on precedent. Men who through necessity or strength of will have cured themselves of over-indulgence in liquor have found the sugar of candy an antidote to the craving for alcohol. Our rumless army consumed huge quantities of candy and suffered not a bit in fighting spirit. So the day of candy may have arrived. Candy saloons are next in order. Boy, page a prohibitionist and tell him big red-blooded men are treating each other to candy on the corner.

There are intimations from Washington that Japan will explain her attitude toward Shantung or else the President will come out in a statement. It is necessary that the public should have all the facts in the case. Either the radicals in the Senate are justified in their charges or they are not. So there must be clarification. If it is the intention of Japan to return Kiaohau to China within a reasonable time let her say so in plain language. It will help very much to a better understanding all around.

Recent outbreaks in Northern communities emphasize the fact that contrary to traditional belief, racial antagonisms are no exclusive possession of the South. Such outbreaks as those at Washington and Chicago are a national concern. Unless they are recognized as such and the cause underlying them given adequate attention many communities in the United States are likely to face unhappy moments in the future. It is not a condition to be solved by ignoring it.

Mr. Cummins, chairman of the Democratic National Committee, told President Wilson that the people of the middle west were for the league of nations by a majority of four to one. A poll conducted by the Omaha Bee shows that the people of Nebraska are against the league by four to one. Evidently Mr. Cummins didn't cover all of the middle west in his calculations.

The railroad men want the railroads taken out of the hands of private capital and given to a triumvirate—the people, the operating management and the employees. Considering the fact that the government has been most successful in losing money in operating the railroads it is hard to tell where the proposed trinity would land under similar circumstances.

It does little good to tell the man who has to pay two cents more for a loaf of bread that the country will have the largest wheat crop in its history, and that there is today more wheat in storage than ever before. He finds it difficult to understand how with so much wheat the price of wheat increases steadily.

Thomas A. Edison and John Burroughs have been Henry Ford's companions on vacation trips, one of which carried them through Fayette county, but they do not seem to have been able to teach him anything about science, history or literature, judging from Ford's testimony on the witness stand.

PLANS PREPARED FOR COUNTY INSTITUTE

Plans for the county teachers' institute have been completed by County Superintendent Crumrine, and a splendid list of instructors has been engaged for the various departments. The sessions will begin Monday, September 1 and will continue until Friday, September 5.

Mr. and Mrs. C. W. Hall have received word of the arrival in New York of their son George Hall who has been in the United States army overseas.

Word has been received by Mr. and Mrs. Robert Coulter of Lincoln avenue of the arrival in New York of their son Robert W. Coulter, after serving several months overseas.

Mrs. Peters, Albert Peters, Mrs. George Wagner and James Wagner have returned from an automobile trip to Youngstown, Cleveland, and Toledo, Ohio and Detroit, Michigan.

FIGURES SHOW STREET WORK DONE

A compilation of street work for the month of July, made by Borough Clerk Ira L. Nickeson and which was read to council Monday evening, shows the number of days devoted by the department to different features of the work. These figures are based on the one man unit, and show that there were given to sweeping and cleaning streets, 120 days and 6 hours; paved streets 9 days; first streets 30 days; sewer repairs 14 days, mowing weeds 2 days, Lincoln avenue extension 21 days, sidewalk grade 15 days and 6 hours, moving to new building 9 days and fire apparatus 3 days. This shows a total of 224 days and 3 hours at a total cost to the borough of \$1,039.31. The figures show that by far the greater part of the street work has been confined to keeping the streets of the borough clean.

Mrs. Joseph Cooper and granddaughter Ethel Lächter left this morning to visit with friends in Baltimore, Md.

Great Good Milk Producer.

Mr. Winthrop Howland of Redlands, Cal., last year had a Swiss Toggenburg goat, kept on the University of California farm, which broke the world's record as a milk producer, by over 300 pounds. For the period of one year this doe produced 2,841 pounds of rich sweet milk, or more than 24 times her own weight. The period of lactation for a good doe should be from seven to eight months.

Antiquity of the Jews.

Armenian and Georgian historians of southern Russia record that the Jew had settled among them in remote antiquity. They have evidence to prove that the children of Israel had lived round the Black and Caspian seas prior to the destruction of the first temple—587 B. C.—trading in fowls and horses with Acco, Tyre, Sidon and other Phoenician cities.

Too Cool for Comfort.

The coldest place on earth inhabited by man is Verkhoyansk, above the arctic circle, in northeastern Siberia. The thermometer there drops to 90 degrees below zero in January, but sometimes rises to 36 degrees above zero in the shade in July, dropping, however, to the freezing point on the warmest summer night.

Easy Window Washing.

To clean windows simply hold a newspaper under the water faucet long enough to dampen it, crush together and rub on the window pane. The window will be cleaned, washed and dried instantly. Should lint remain brush off with a dry cloth. Cotton gloves may be worn to protect the hands.

Great men need to be lifted upon the shoulders of the whole world, in order to conceive their great ideas or perform their great deeds; that is, there must be an atmosphere of greatness round about them. A hero cannot be a hero unless in a heroic world.—Hawthorne.

Effective Treatment.

Mrs. Harris—Yer want ter take care o' that cold, Mrs. Green. Yer ought to git a pennorth of Eucalyptus from the chemist, put it in a jug o' boiling water, 'old yer 'ead over it, and ignore it.—Pearson's Weekly.

MUST DRAFT NEW MOTOR ORDINANCES

It is said that practically every town in Washington county will have to revise its ordinances regulating the driving and use of automobiles and motor vehicles to conform with the state law, which was recently signed by Governor W. C. S. proud. By these laws uniformity of statutes is compelled, so that all motorists will know what to expect in all cities or towns.

The law reads that only stopping and parking of vehicles, the use of certain one-way streets, the kind and weight of traffic on certain streets and in public parks and the establishment of safety zones, may be treated by city ordinances. Only the state law will govern speed, equipment, use or operation of automobiles in towns or cities.

The new law means an elimination of speed traps, unless the state sees fit to change them. It enforces a speed of 30 miles an hour, except in towns where 15 miles may be the limit. For this limit also there must be signs posted, otherwise for court. He decided to do the late recognize the 15-mile limit.

CHANGE STYLE OF PAINTING BOATS

Rivermen notice quite a change in the style of painting steamboats at the present time, the old-time white body with green shutters being done away with to a large extent. Some years ago it was the custom of steamboat owners to paint their towboats all white, with green on the window shutters, a combination which prevailed for generations. The custom today is for steamboat owners to adopt a certain style of painting for the steamers of their own line and it is likely this innovation will prevail. The Hillman Transportation company has adopted a slate color for the lower bulkheads, with white on the cabin while the Carnegie Steel company has adopted a steel gray for the lower portions of the boat and white for the cabin. About the only boat which adheres to the old style colors is the steamer Iron City, owned by the Iron City Sand company.

It is said that green corn was selling in Washington on Saturday last for 30 cents a dozen. A farmer was in town on Tuesday with a truck load selling corn at 50 cents a dozen. A Donora hotel keeper was offered green beans by a farmer hailing from near Finleyville at \$4.00; another party offered the same kind of beans at \$2.25. The hotel man is trying to figure out at the present time who the profiteer was.

Von Bethman Hollweg puts it very plainly when he says:—"If the League of Nations has any value the alliance with France and England is superfluous. If America considers the alliance necessary the League of Nations is a mere delusion." Who can contradict that proposition.

NOW THAT THE TREATY IS SIGNED

And most of the boys are home again busy at their old or at new work.

And industries of peace-times are preparing to catch up with the needs of the world.

Let us consider carefully the great part this nation must play, that all people may enjoy the benefits of peace.

Whether personally engaged in active work incident to reconstruction, or not, each of us can help by practicing thrift at all times.

A thrift account with this Institution is an excellent way to register determination to be a real factor in the world's rebuilding.

REMNANTS

Berryman's Big Semi-Annual Remnant Sale
THURSDAY and FRIDAY, AUGUST 7th and 8th, 1919.

"REMNANT DAY"—What does it mean? For over 23 years it has meant—and still means—the record event of the year in this Store.—More people come—from far and near—and more business is done on Remnant Days than any other sale days of the year—there are reasons for all this —Reasons why this extraordinary selling event has kept growing each and every year for nearly a 1-4th of a century.

People not only keep coming but evidently they tell others to come, judging from the increased attendance—that goods and prices, plus truthful advertising—advertise themselves and bring the people every year—with new and greater experience—Remnant Day this year will be better than ever before, and this one will make a new record.

This Year—these Remnant Day's will speak for themselves—and everybody who comes—no matter where they come from, far or near—will be profitably rewarded—paid well for thier coming.

How Its Done—Every Remnant, skirt and dress length of every kind and description from crash toweling to silks—is carefully measured, yards and price is each marked thereon and marked in plain figures—and in Red Ink—a price that will do the selling. You can practically wait on yourself and ask the salesperson to do the rest.

NOT ONLY REMNANTS—but ready-to-wear of every kind for Men, Women and Children—and goods in every department will be be reduced for this occasion.

SALE STARTS AT 8:30 THURSDAY MORNING, WHEN THE STORE OPENS

And It Will Be A Sale Each Day Right Up to 5 O'clock—When The Store Closes.

GLASS FACTORY TO RESUME ON 20TH

After being closed down for the past 14 months by order of the fuel administration of the government the Brownsville Window Glass Company, at West Brownsville, will resume work August 20th. The fire in the tank has been burning for the past two weeks, gradually heating the glass and the furnace. The factory will employ about 400 hands, many of whom will be brought in from outside towns. Just now the management is finding difficulty in securing living quarters for those outside of Brownsville, and who desire to work at the factory, so far accommodations having been found for 250 men. The glass company during the past years has built 150 houses, most of which were sold to their employees, until at the present time it holds title to but fourteen.

ELECTROCUTED BARGE TO THE MARINE WAYS

Steel barge No. 9, owned by the Carnegie Steel company and which was "electrocuted" at the Monessen bridge a few weeks ago during a severe electrical storm, and rendered unfit for use, was taken to the marine ways on Monday by the steamer Clingerman for repairs. Several holes were burned in the side of the barge, which rendered it unfit for use. It is likely that new plates will have to replace the ones injured.

The Mexican Ambassador to the United States, now spoken of as a candidate for the Mexican Presidency, will, if he believes in safety first, remain Ambassador to the United States.

MOTHERS TO BE

Should Read Mrs. Monahan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time."—Mrs. PEARL MONAHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

For Baby Rash

Itching, chafing, scalding, all irritations and soreness, nothing heals like Sykes Comfort Powder. Its extraordinary healing and soothing power is noticeable on first application. 25c at the Vinol and other drug stores. The Comfort Powder Co. Boston, Mass.

How Nuxated Iron Helped Put Me In Such Superb Condition As To Enable Me To Whip Jess Willard And Win The World's Championship

JACK DEMPSEY "TIGER OF THE RING"

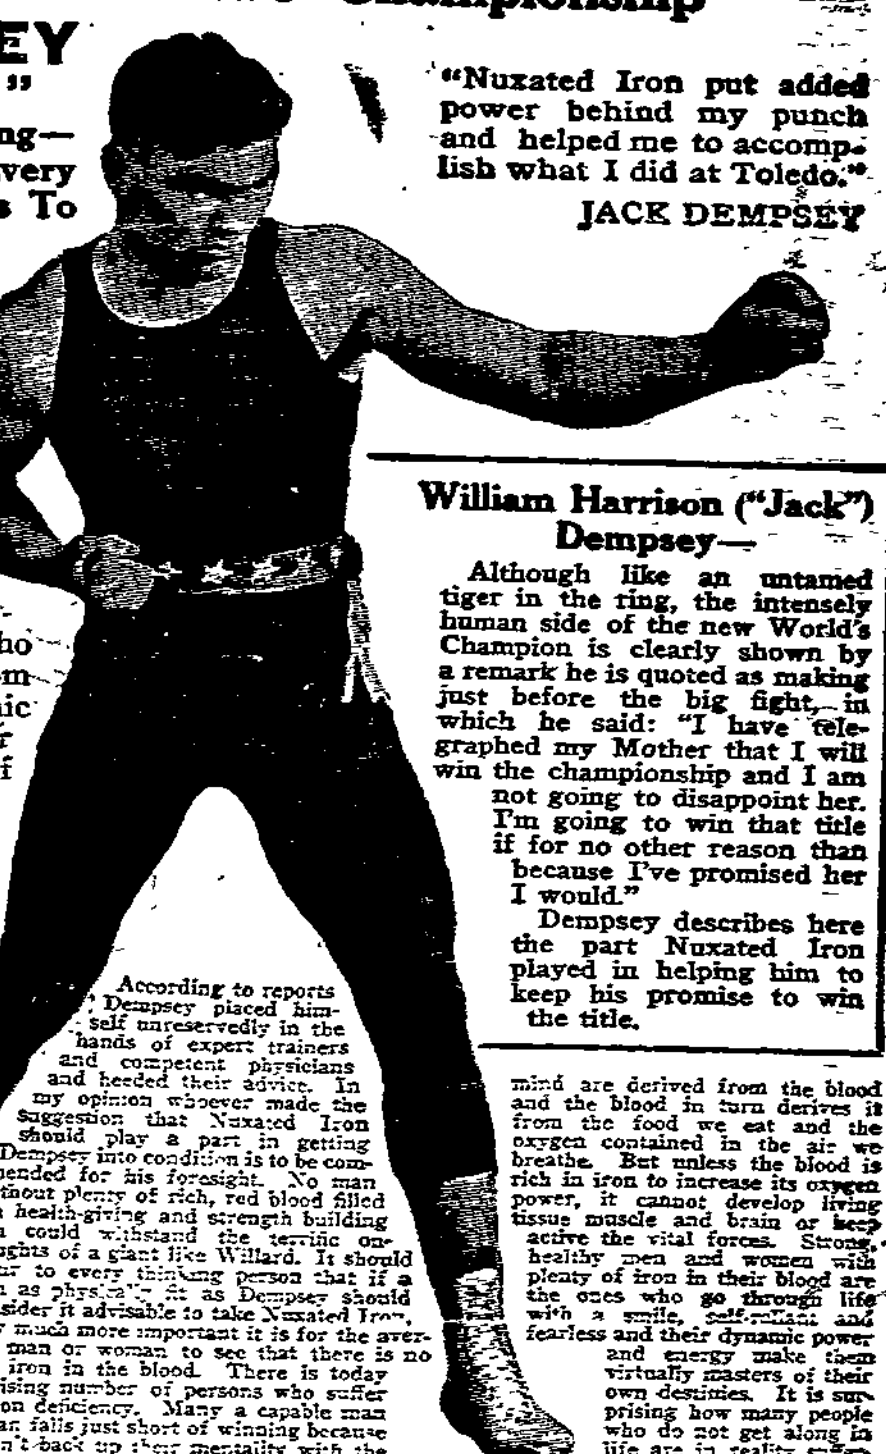

Tells a Secret of His Training—
Recommends Nuxated Iron To Every
Man and Woman Who Wants To
Build Greater

Strength, Energy and Power

Today recognized as the physical superior to any living man—the Superman of the Age—Jack Dempsey, Heavyweight Champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the supreme test of his career. In his decisive, smashing victory over the mighty Willard, who had never before been knocked from his feet, Dempsey displayed a dynamic overwhelming strength and power never before known in the history of the ring. That he took Nuxated Iron as a part of his training is convincing evidence of the importance Dempsey attached to keeping his blood rich in strength-giving iron, and the high regard in which he holds Nuxated Iron as a master strength and blood builder.

In a statement made at his training quarters in Toledo, the scene of the big battle, Jack Dempsey said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strengthening foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I needed more powerful aid. I took Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to a wonderfully great degree my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of the Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says: "The methods of training adopted by Willard and Dempsey may have had a great deal to do with the outcome of this fight."

William Harrison ("Jack") Dempsey

Although like an untamed tiger in the ring, the intensely human side of the new World's Champion is clearly shown by a remark he is quoted as making just before the big fight, in which he said: "I have telegraphed my Mother that I will win the championship and I am not going to disappoint her. I'm going to win that title if for no other reason than because I've promised her I would."

Dempsey describes here the part Nuxated Iron played in helping him to keep his promise to win the title.

mind are derived from the blood and the blood in turn derives it from the food we eat and the oxygen contained in the air we breathe. But unless the blood is rich in iron to increase its oxygen power, it cannot develop living tissue muscle and brain or keep active the vital forces. Strong, healthy men and women with plenty of iron in their blood are the ones who go through life with a smile, self-reliance and fearless and their dynamic power and energy make them virtually masters of their own destinies. It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

Manufacturers Note: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians as a tonic and blood builder which is well known to druggists everywhere. Unlike the older coarsely iron products, it is easily assimilated, and does not irritate the stomach, make them black, nor open the stomach. The manufacturers guarantee satisfaction, and return your money, if it is dispensed by all good druggists.

Sold by Piper's Drug Store and all other Druggists.
